Notes:

Chapter Title

The original title was "The Cuckoo Does Not Sing" which is a play on words in Japanese. In Japanese, an idiom to say that business is slow is "The Cuckoo is singing", meaning it is so quiet one can hear the birds. This is what Tosaka originally says later in the chapter when he's complaining about the exhibition. I tried to re-create the play on words about things being busy or not busy as best as I could in English.

I have some siblings who were born into the digital age, and as a result they have no idea that you used to have to *wind* film on a camera to advance it to the next frame.
The 80's. Crazy, huh?
